

Software **SILDIS**® for acoustics (Excel based): optimized designs within your reach for building, industry

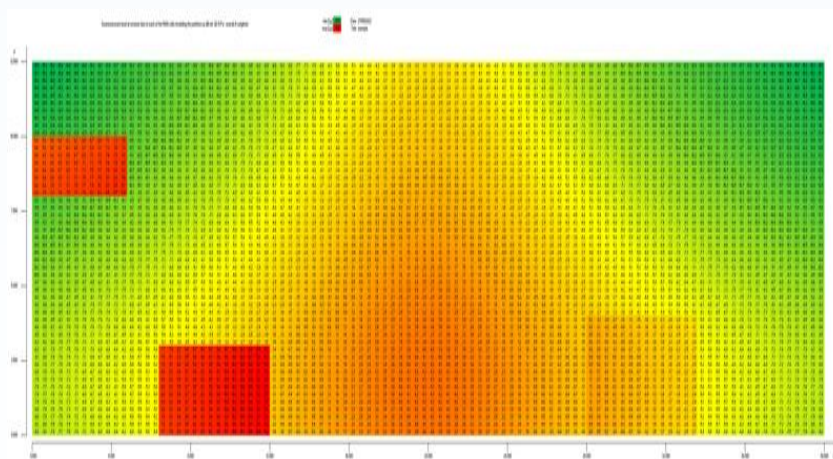

Sound Impact Limitation: Design for Industrialized Solutions

- Development & validation ISO 9001 certified
 - Near-perpetual license (100 years)

Software **SILDIS**® Module 1B: prediction of the noise emissions from buildings and other constructions

- Sound power level, sound pressure level in specified locations. Some of the simulation results are comparable with standard ISO 12354-4 Building acoustics - Estimation of acoustic performance of buildings from the performance of elements - Part 4: Transmission of indoor sound to the outside
