

Software **SILDIS**® for acoustics & aerodynamics (Excel based): optimized designs within your reach for building, industry

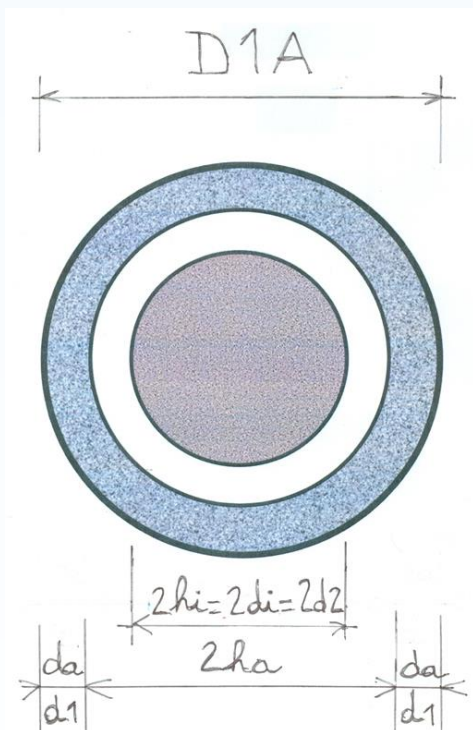

**Sound Impact Limitation:
Design for Industrialized
Solutions**

- Development & validation ISO 9001 certified
 - Near-perpetual license (100 years)

Software SILDIS® Module 1: for all circular absorption silencers

- Computation results comparable to ISO 7235 Acoustics - Laboratory measurement procedures for silencers in ducts and terminal units - Insertion loss, flow noise and total pressure loss
