

Software **SILDIS**® for acoustics & aerodynamics (Excel based): optimized designs within your reach for building, industry

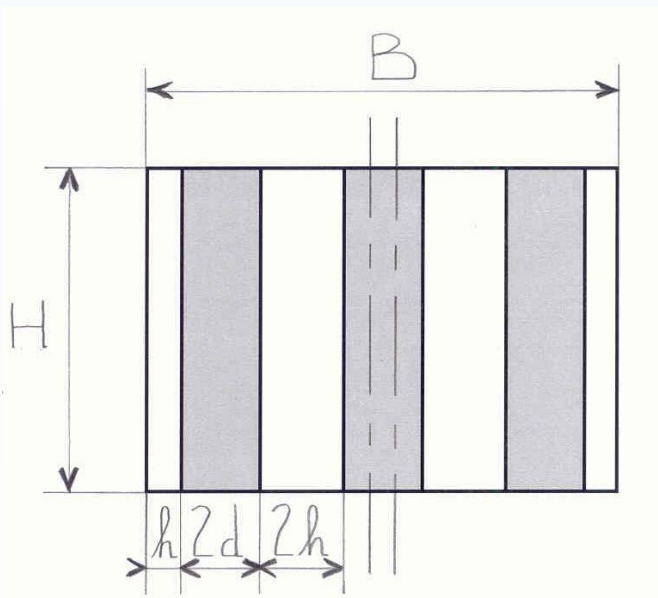

**Sound Impact Limitation:  
Design for Industrialized  
Solutions**

- Development & validation ISO 9001 certified
  - Near-perpetual license (100 years)

**Software SILDIS**® **Module 1**: for all rectangular absorption silencers

- Computation results comparable to ISO 7235 Acoustics - Laboratory measurement procedures for silencers in ducts and terminal units - Insertion loss, flow noise and total pressure loss
